WE MAKE A DIFFERENCE

## OLIGHT HISTORY MILESTONES

## WHO WE ARE

We are a group of people who believe that no one should be left in the dark — period. We believe that everyone should have a quality illumination source when it matters most. We care about every little detail from brightness to runtime to ergonomics, size and weight — and more importantly, how we can improve your life with light. We want to push our products to the limit so that we can give you the best lights in the smallest package possible for the best price, so you have the right tools to conquer the night.

We are a global technology driven lighting company filled with dedicated people who want to provide the best for our customers. We are Outdoorsmen, Sportsmen, Veterans, and DIY go-getters — we are you. We use our own products everyday to make sure we practice what we preach; it keeps us honest. We want to give you quality design and functionality that really works when you need it to. We are just a group of people looking to change the world one light at a time. And we want you to be a part of it.

- 2017 • To meet high demand and rapid growth, OLIGHT is relocating to a larger facility in the Fuhai information harbor  
Opening an independent 3,900-square-meters manufacturing plant in Dongguan  
Business clients in and outside of China, suppliers, fans, and employees from all over the world are joining to celebrate the 10th anniversary of OLIGHT
- 2016 • OLIGHT was recognized as a National High-Tech Enterprise  
US and German Branch expansion  
The global distribution network expanded to include over 83 different countries and regions
- 2015 • OLIGHT created their first pistol light known as the PL-1 and continued to expand the weapon light line
- 2014 • OLIGHT expanded to over 70 countries creating a global presence in the marketplace
- 2013 • The company contributed ¥58,000 to the Lushan earthquake relief effort  
During the same year, the OLIGHT& LIGHTS Charitable Fund was created
- 2012 • The company moved to Fuhai industrial park, establishing the 2,000-square-meters headquarters and factory location  
OLIGHT produced their first headlamp known as the H15 and achieved unprecedented success in the Northern European market
- 2011 • The OLIGHT S series with its signature uni-body design were released with worldwide success in the outdoor industry
- 2010 • The SR90 was released as the world's first single-die LED flashlight reaching an output of 2,000 lumens  
OLIGHT donated the sales of the M20S for the relief efforts of the Yushu earthquake
- 2009 • Due to rapid growth and demand, the company moved to Anle industrial park of Gushu, Bao'an District  
The tactical M30 was developed and released furthering the status of OLIGHT among other tactical flashlight brands  
OLIGHT exhibited at SHOT SHOW in Las Vegas for the first time
- 2008 • OLIGHT entered the tactical, military, and law & enforcement field with the successful M20  
During the same year, OLIGHT contributed to relief efforts for the Wenchuan earthquake by donating T15 flashlights to disaster areas
- 2007 • OLIGHT TECHNOLOGY CO., LTD was registered  
The OLIGHT brand was created to conquer the high-end flashlight market  
The first OLIGHT flashlight known as the T20 was born

## I1R EOS

TINY RECHARGEABLE LED KEYCHAIN LIGHT

130 LUMENS

### DESCRIPTION

The I1R features a built-in rechargeable Li-ion battery that charges through a Micro-USB port when the light head is unscrewed and removed. It utilizes a Philips LUXEON TX LED paired with a TIR optic lens producing a soft and balanced beam. Changing outputs is simple just by twisting the light head. The I1R EOS is the perfect daily carry keychain flashlight with high output, convenient charging, and easy mode changing.

### FEATURES

- ◆ The smallest 130 lumens ever. It has a compact body that's shorter than an AAA battery and slimmer than a pinky finger.
- ◆ Rechargeable through a built-in Micro-USB charging port which is accessed by removing the head of the flashlight.
- ◆ Soft and balanced beam profile to preserve comfortable vision.
- ◆ Twist the flashlight head for ON/OFF and output changes.

Tail Switch for Integrated Operation

TIR Optic Lens

### DESCRIPTION

Powered by an ordinary AAA battery, the I3T is a discrete carry powerhouse that is able to achieve an output of 180 lumens. With a tactical tail switch, unique milling, premium beam and multiple carrying options, the I3T is an incredibly convenient illumination experience to take with you anywhere.

### FEATURES

- ◆ Using the full potential of a single AAA to achieve an incredible 180 lumens,
- ◆ Taking up barely any space in the pocket. Perfect flashlight on the go.
- ◆ An auxiliary spring is hidden underneath the switch making operations crisp and easy.
- ◆ Soft and balanced beam profile to preserve comfortable vision.
- ◆ Wider clamp for the pocket clip producing a more sturdy clip and attachment point.

## ULTRA COMPACT LED FLASHLIGHT

POWERED BY A SINGLE RCR123A BATTERY

S1 MINI

MAX. 600 LUMENS

S1 MINI HCRI

MAX. 450 LUMENS

### FEATURES

- ◆ Comfortable feel. With an aluminum alloy uni-body structure, the flashlight body has finely braided knurling for a comfortable yet solid grip and feel.
- ◆ Extremely compact. The new S1 MINI is one of the shortest CR123A & RCR123A battery compatible flashlights.
- ◆ The included battery is rechargeable through a built-in Micro-USB port.
- ◆ Illuminated low battery and lockout mode indicator in the center of the side switch.
- ◆ Magnetic tail cap. The flashlight attaches securely to any ferrous metal surface for hands free use.
- ◆ Deep carry dual-direction pocket clip with a lanyard hole on the top for the perfect carry options.
- ◆ Max output of 600 lumens.
- ◆ (HCRI) Max output of 450 lumens. The first flashlight in the industry with a 90 CRI, allowing the flashlight to reproduce colors of the illuminated object perfectly.

### DESCRIPTION

The S1 MINI Baton is a new generation of extreme power flashlights suitable for everyday pocket carry. The new generation S1 MINI is made of aluminum alloy including body knurling with a finely braided surface texture for optimal grip.

The S1 MINI Baton HCRI is the high CRI (Color Rendering Index) version of the new generation S1 MINI. This product is developed in response to the appeal of OLIGHT fans looking for the perfect warm LED tint. This light gives both a high output of 450 lumens and a CRI value of 90, reproducing the colors of the illuminated object perfectly. The S1 MINI HCRI is the perfect representation of an illuminated object with true colors.

## S1 BATON

VARIABLE-OUTPUT SIDE-SWITCH LED FLASHLIGHT

**500 LUMENS**

### DESCRIPTION

The S1 Baton is the latest evolution of our most popular Baton series. At less than 2.5 inches, and just over one ounce, the S1 Baton fits easily in your pocket, making it perfect for everyday carry. While the S1 Baton is small, its TIR -focused output is a mighty 500 lumens whose beam reaches 360 feet. And it has plenty of features to be the most useful light you can own, like its magnetic tailcap, variable light settings, and automatic timer shutoff.

### FEATURES

- ◆ Uses TIR optics lens, giving a soft and balanced beam
- ◆ Magnetic tailcap, pocket clip and moonlight mode
- ◆ Silicone low profile side switch
- ◆ Built-in timer
- ◆ Compact and mighty

## S2 BATON

VARIABLE-OUTPUT SIDE-SWITCH LED FLASHLIGHT

### DESCRIPTION

The S2 Baton is a side switch LED flashlight powered by a single 18650 battery or two CR123A lithium batteries. The S2 uses a high performance Cree XM-L2 LED which is able to deliver a maximum output of 950 lumens. The S2 carries a balanced beam by using a 90% light transmittance PMMA TIR lens that provides the light with a cool white balanced appearance. The S2 continues to apply the same signature features as the Olight S-series flashlights including a low profile side switch, removable pocket clip, magnetic tailcap, and timer.

## S1A BATON

VARIABLE-OUTPUT SIDE-SWITCH LED FLASHLIGHT

**600 LUMENS**

### DESCRIPTION

Only powered by a single AA battery, the S1A Baton is the upgraded version of the popular S15 Baton, yet with double the performance. It maintains the style of Olight Baton series, such as the stainless steel pocket clip, blue clamping ring on the bezel and switch and a magnetic tailcap. It has a range of 0.5~220 lumens, yet when powered by a 14500 lithium battery, it can deliver a maximum output of 600 lumens.

### FEATURES

- ◆ Uses TIR optic lens, giving a soft and balanced beam
- ◆ Magnetic tailcap, pocket clip and moonlight mode
- ◆ 100% discharge of battery, highly energy-efficient
- ◆ Built-in timer

## EXCELLENT CHOICE FOR CAMPING AND THE GREAT OUTDOORS

### FEATURES

- ◆ Utilizes CREE XM-L2 LED (NW/CW) paired with bead lens, giving a perfect close-range illumination experience
- ◆ Coupled with high light transmission rate TIR optic lens to deliver a balanced and soft beam
- ◆ Five brightness levels and SOS mode covering 2~500 lumens
- ◆ Compatible with RCR123A (16340) rechargeable lithium battery
- ◆ Gradual brightness changes. When turned on/off on medium, high and turbo modes, it will light up or fade gradually to protect eyes from the stimulation caused by sudden brightness changes
- ◆ Low profile, silicone switch located on the head of the headlamp for easy location and operation
- ◆ Magnetic tailcap allows it to be attached to any ferrous surface for hands free work when being used as a light.
- ◆ Runtime based thermal management program. Under the turbo mode, the headlamp stays at the maximum output for three minutes before gradually dropping down to high mode in one minute.

	1.5 meters				
	(L) 2.3in / 58.5mm × (D) 0.8in / 21mm				
	2.35 oz / 66.5 g (including battery)				

### DESCRIPTION

The H1 Nova (NW/CW) is a compact uni-body aluminum alloy LED headlamp with an output range of 2 to 500 lumens running off of a single CR123A or RCR123A battery. The H1 comes with a highly efficient CREE XM-L2 LED and TIR bead lens for maximum clarity. The focus and the flood are clearly divided, yet the area between the two is a smooth transition. The lightweight H1 is extremely small mimicking the size of an adult thumb. The light is connected to the head strap through a silicone mount, and can freely rotate to adjust the beam angle. After removing the light from the mount, attach the provided pocket clip and it can easily turn into a standard pocket flashlight with a magnetic tailcap. This high-output and convenient headlamp is an essential illumination tool for all activities in the dark.

\* Optional green and orange head straps available

Orange/Green Head Strap (Optional)

Blue Head Strap (Standard)

# H1R NOVA

## RECHARGEABLE TOGETHER WITH YOUR PHONE

### FEATURES

- ◆ Rechargeable via the magnetic tailcap
- ◆ Powered by a customized 650mAh rechargeable RCR123A battery with a maximum output up to 600 lumens
- ◆ Both cool white (5500K-7000K) and neutral white (4750K-5000K) LED versions available
- ◆ Compact and handy light with multiple use options: headlamp, pocket light, clip to a bag, etc.
- ◆ Olight USB magnetic charging cable included (compatible with S1R/S2R/S10RIII/S30RIII)
- ◆ 180 degrees smooth vertical rotation for the light on the silicone mount
- ◆ Bead optic lens for ideal close-range illumination
- ◆ SOS mode available

## RECHARGEABLE VERSATILE LED ILLUMINATION TOOL

MAX. **2300** LUMENS  
3000mAh 18650 (included)

### FEATURES

- ◆ Maximum output of 2,300 lumens making the H2R the brightest single 18650 battery light.
- ◆ Multiple use options including an easily detachable head strap mount turning it into a hand held light.
- ◆ Rechargeable through OLIGHT's signature magnetic charging system.
- ◆ Low battery warning. The light will blink once per minute when the battery is running low, and continuously blink twice when it is running out.
- ◆ Slightly angled surface for the switch to locate it easily in the dark and promote more natural operation.
- ◆ Gradual brightness changes. When turned on/off on medium, high, and turbo modes, it will light up or fade gradually to protect eyes from the stimulation caused by sudden brightness changes.
- ◆ SOS mode available for emergency use.

### DESCRIPTION

The H2R Nova (CW/NW LED) is a LED illumination tool powered by a single 18650 battery with a maximum output of 2300 lumens. Using a highly efficient CREE XHP50 LED and TIR bead lens, the H2R delivers a balanced beam perfect for close range illumination. This light is a multi-use illumination tool that can be used as a headlamp with the included head strap that features a magnetic mount that wraps around the light for a secure and firm hold. When detached from the mount it can also turn into a hand held light using the provided pocket clip. The H2R battery can be charged directly through the tail cap of the light using OLIGHT's signature magnetic charging cable. The high output and versatility of the H2R Nova make it a powerful and vital tool for activities in the dark.

	4.23 oz/ 120g		

### DESCRIPTION

The H16 Wave represents Olight's new generation of intelligent rechargeable LED headlamps that can use hand wave motion activation. With two parallel LED's giving a combined beam for both extensive flood and focused illumination, the H16 has a maximum output of 500 lumens with three adjustable beam angles. The rechargeable high capacity LiPo battery pack is located on the rear of the head strap for a comfortable weight balance with the LED system up front. The battery pack is charged via a Micro-USB port that features four visual battery level indicators with an audible beep at 10% battery to alert the user that it will go out soon. The H16 Wave headlamp is a great choice for maintenance, night cycling, fishing, mountaineering and any other outdoor activity that requires light without taking away function.

# HS2

## BRIGHTEST COMPACT HEADLAMP FOR RUNNING

### FEATURES

- ◆ Super lightweight. It is made of lightweight aluminum alloy material with a compact uni-body structure.
- ◆ Wide illumination area. Its dual LED light source with TIR optic lens give either independent low beam (close-range light), high beam (far-range light) or a mixed beam combining both of them.
- ◆ Great runtime. It has a 2000mAh Lipo battery pack that supports a runtime up to 18 hours for continuous use.
- ◆ Alternative lighting easily available. In case the provided battery pack runs out of power, the headlamp can still be powered by any external Micro-USB power source and resume normal work by plugging the charging cable to it, further extending its runtime.
- ◆ Smart power level indication. Four-level battery power indication and low-power beeping sound warning in addition, helping to keeping you updated of the power status.
- ◆ Gradual brightness changes. When turned on/off or changing modes, the brightness will change gradually to protect eyes from the stimulation caused by sudden brightness changes.

**DESCRIPTION**

The M2R is our brand new rechargeable dual switch LED tactical flashlight. This light is equipped with the latest XHP35 HD LED powered by a single high discharge rate 18650 battery with an output range of 1 to 1,500 lumens.

The M2R features a quiet tail switch with minimal noise when being turned on for maximum concealability. The light can magnetically charge directly through the tail switch making this the most innovative tail switch design since the birth of the tactical flashlight. The side switch has a similar operation as the OLIGHT S series flashlights, while the tail switch can be switched between standard and enhanced tactical operation mode.

OLIGHT Micro-Dok Compatible(Optional Accessory)  
Directly rechargeable with all conventional 18650 batteries

\*Max 1,500 lumen output reached when the included 18650 battery, or 18650 battery with a discharge current of over 6A is used. Otherwise the max. output is 1,000 lumens.

### DESCRIPTION

The M2T Warrior, based off the groundbreaking M2R model is a dual switch LED tactical flashlight equipped with an XHP35 HD CW LED powered by a single 18650 or two CR123A delivering an output range of 1 to 1,200 lumens. This light features a silent and compact tail switch for easy operation. Users can have momentary ON, ON/OFF switching, and momentary strobe all through pressing the tail switch using different pressure. The side switch features a similar operation as the extremely popular OLIGHT S series flashlights for standard carry. With a lanyard hole, dual direction pocket clip, and holster, the M2T Warrior is the perfect light for anyone looking for an easy to operate and high quality tactical flashlight.

## M23 JAVELOT

EXTENDED-RANGE VARIABLE-OUTPUT LED FLASHLIGHT

**1020 LUMENS**

### DESCRIPTION

The M23 Javelot is a tactical LED flashlight featuring a high intensity output with a compact form factor. The M23 Javelot features a customized CREE XP-L HI LED that reaches a maximum beam distance of 436 meters and has a maximum output of 1020 lumens. The M23 Javelot features a stainless steel bezel and a tail conductive structure that makes it more stable, durable and impact resistant.

### FEATURES

- ◆ Customized LED with a tightly focused beam providing a 436-meter beam distance
- ◆ Reverse polarity protection to prevent improper battery installation
- ◆ Flush tailcap design enables the flashlight to stand with the bezel facing upwards
- ◆ Heat sink rings on the head for efficient heat dissipation

PL-2 VALKYRIE

LED WEAPONLIGHT

1200 LUMENS

DESCRIPTION

The PL-2 Valkyrie is one of the brightest compact weapon light on the market with a single output of 1,200 lumens. The light uses a high-performance Cree XHP35 HI LED powered by two high capacity CR123A batteries. The light features a TIR optic lens providing a 235-meter-long focused beam that still is wide enough to see all around you. The heavy duty quick attach and release mounting system allows the light to have a tight hold on any firearm with a rail.

FEATURES

- ◆ Single output reaching 1,200 lumens, which may momentarily incapacitate your foe with top output among weapon lights.
- ◆ A far-reaching beam with a throw of 235 meters.
- ◆ Custom battery compartment lock design to prevent accidental opening.
- ◆ Manual quick attach and release mounting system that can be used with one hand.
- ◆ Silent ambidextrous ON/OFF switch. Push forward or hit the side to activate.

## PL-MINI VALKYRIE

MOST POWERFUL COMPACT WEAPONLIGHT

**400 LUMENS**

### DESCRIPTION

The PL-MINI Valkyrie is the world's most powerful compact weapon light with a maximum output of 400 lumens using a built-in CREE XP-L HI LED. This extremely lightweight weapon light is also compact enough to not disrupt the balance of a handgun while being perfect for holster carry. It is powered by a built-in lithium polymer battery, which is rechargeable through our signature magnetic charging port at the bottom of the light using the MCC350 charging cable.

### FEATURES

- ◆ First directly rechargeable compact weaponlight.
- ◆ Tiny and lightweight. Only 2 oz/62g. Easily concealable.
- ◆ Manual quick attach and release mounting system.
- ◆ Downward switching only, minimizing accidental triggering when put into a holster.
- ◆ Low power warning indicator.

# 25,000 LUMENS

## FEATURES

- ◆ Highest brightness level Olight ever produced reaching a max output of 25,000 lumens.
- ◆ Smart output control to prevent overheating - Proximity sensors that drop the output automatically when the flashlight head approaches a nearby object. Active thermal management system that reduces the output when the temperature gets too hot to prevent any damage or overheating.
- ◆ Real time battery level display while indicating an 8-level output selection.
- ◆ Improved built-in heat dissipation system design for more effective cooling of the flashlight body.
- ◆ Ergonomic design. Milled finger grooves, shoulder strap and concealable strap hole for convenient and comfortable use.
- ◆ Battery balance. The battery protection board can balance out the power of individual cells to maximize the performance of the entire battery pack and also increase each cell's longevity.

MAX OUTPUT 25,000 lumens	MAX RUNTIME 27 hours	MAX THROW 630 meters
-----------------------------	-------------------------	-------------------------

Carrying Case: Waterproof, dustproof, shock-proof

DC 16.8V2A Adapter

## 180 LUMENS

## X9R MARAUDER

THE NEXT GENERATION OF POWER

### DESCRIPTION

With an incredible 25,000 lumen output, the X9R is the most powerful Olight ever produced. This beast is equipped with six Cree XHP70.2 LEDs and is powered by a removable battery pack that combines 8 high discharge rate 18650's that are easily recharged simply by plugging it in. The X9R features a tactile side switch surrounded by 8 blue LED indicators on each side displaying output level, remaining power level, or charging status. It also comes in a hard case including charging gear and a shoulder strap for convenient carry. The X9R Marauder is the best option for intense output, long runtimes, and sustainable use for years to come.

# X7R MARAUDER

## MOST USER-FRIENDLY ULTRA BRIGHT FLASHLIGHT

# X7R MARAUDER

MOST USER-FRIENDLY ULTRA BRIGHT FLASHLIGHT

**12000 LUMENS**

### DESCRIPTION

The X7R Marauder is the redesigned brighter and rechargeable version of the X7 with extraordinarily high output and performance. The light has a built-in battery pack coupled with an upgraded circuit board to catapult the maximum output to 12,000 lumens. The X7R features enhanced safety technology through proximity sensors that lower the output when the higher beam settings are near an object it could potentially damage.

### FEATURES

- Maximum output of 12,000 lumens, a 33.33% brightness increase over the original X7 Marauder.
- USB Type-C charging port and cable included.
- Enhanced safety with proximity sensor and active thermal management system.
- Innovative twist to open and close charging port cover design that still maintains waterproof ability.
- Ergonomic and user-friendly design.

# QUALITY ACCESSORIES FROM OLIGHT

Olight accessories are specifically designed to compliment our lights and your needs. We know getting out there with the right tools on hand leads to a successful nighttime adventure.

### BATTERIES

Various batteries such as 18650, 16340, 14500, 26650, CR123A or lithium iron batteries that can be used to power your flashlights.

### COLOR FILTERS/DIFFUSERS

Filters are available in different sizes to fit the S series, M series, and SR series flashlights.

### FLASHLIGHT BIKE MOUNT

The OLIGHT FB-1 UFBM (Universal Flashlight-Bike Mount) is a bicycle flashlight mount that fits any smaller sized OLIGHT allowing you to ride at night with your favorite flashlight.

### REMOTE PRESSURE SWITCH

Remote pressure switch allows you to activate your M series weapon lights while maintaining your preferred grip.

### TRAFFIC WAND / DIFFUSER WAND

Orange and white traffic wands to convert your S series, M series or R series flashlights into a glowing high-visibility flashlight.

### WEAPON MOUNT

This weapon mount securely attaches your 1 inch bodied light to Picatinny and Weaver rails.

### USB CHARGING DOCK (MICRO DOK)

It can charge rechargeable flashlights through a magnetic contact charging base. The new dock has three suction cups to increase its stability.

### CAR CHARGER (INCLUDING USB CAR CHARGER)

This is to be used to charge some Olight flashlights either through a micro-USB port on the flashlight body, such as R20, R50 or through a charging dock, such as R50 PRO LE.

### MAGNETIC WEAPON MOUNT

Easily attach a flashlight to weapons that do not have rails or other mounting options.

### ❖ OMNI DOK

An intelligent charger that can match any rechargeable batteries which can insert into the charge bays, such as AA/AAA NiMH batteries, 18650, 16340, 14500 lithium batteries, etc.

### MAGNETIC CHARGING CABLE

This is the charging cable that works by attaching the magnetic end to the tailcap of the rechargeable S series or R series flashlights.

### ❖ UC

This is a universal magnetic USB battery charger that can work with all single cylinder rechargeable batteries of various sizes, such as AA/AAA NiMH batteries, 18650, 16340, 14500 lithium batteries, etc.

❖ Please note: To prevent a short circuit, please do NOT use Omni Dok and UC to charge some Olight customized batteries (such as those that comes with S1R, S2R, S10RII, S10RIII, S30RII, S30RIII, R20, R50, R50 PRO/LE and H1R) with a positive and negative polarity on the same side.

## OUR WARRANTY

Here at Olight, we believe in our products.

If your Olight product has any defect as the result of the materials or workmanship we want to make it right!

**Within 30 days of purchase:** Return the product to the retailer you purchased it from and they will replace or repair it. Period.

**Within 5 years of purchase:** Return the product to Olight and we will repair or replace it as long as the light is not working because of factory defects. This does not include obvious user wear or extreme damage.

**After 5 years of purchase:** Return the product to Olight and we will repair or replace it. We will assess the fees involved and will let you know once we receive it.

**The Omni Dok is also under Olight's 5 year warranty.**

Of course, this warranty does not cover normal wear and tear. IF YOUR LIGHT HAS SIGNIFICANT DAMAGE AND IT IS SENT TO US, WE WILL SEND IT BACK TO YOU. This warranty also does NOT cover modifications, misuse, disintegrations, negligence, accidents, improper maintenance, or repair by anyone other than an Authorized retailer or Olight itself. BUYER IS RESPONSIBLE FOR RETURN SHIPPING COSTS. Please note that the warranty process may take 3-4 weeks to get it back to you.

\*Accessories such as pocket clips, holsters, and charging cables are not under the 5 year warranty. These are accessories given for free with our products.

The H15S Wave and H16 wave are currently under a **2 year** warranty.

I1R EOS and batteries are currently under a **1 year** warranty.
