

This protected 3500mAh 18650 battery was specifically built for the X7 Marauder but also usable in other torches that use 18650s.

These batteries are needed to reach the 9000 lumen setting on the X7 and can provide up to 10A.

This battery is NOT compatible with the Warrior X - It will not be able to provide the 2000 lumens required.

HIGH DRAIN CURRENT

The high-powered Olight HDC 3500mAh 18650 batteries have a discharge current of over 8A each, allowing the Olight X7 Marauder to reach its maximum output of 9000 lumens while providing other 18650 compatible flashlights with incredibly long runtimes.
