

OOLIGHT USER MANUAL

Odin

Thank you for purchasing this Olight Product. Please read this manual carefully before use and keep it for future reference!

IN THE BOX

SPECIFICATIONS

Table with flashlight specifications: HIGH 2000 lumens, LOW 300 lumens, beam distance 300m, brightness 22,500cd, throw 1.5m, protection IPX8, dimensions (L)5.37*(D)1.14in, weight 7.62oz/216g.

All above specifications are test results based on ANSI/NEMA FL1-2009 Standard. The tests are performed using the battery included in the light. Note: The light output brightness will decrease as the battery voltage decreases.

USB MAGNETIC CHARGING CABLE -- MCC3

Table with charging cable specifications: Charge cable, Input, Charging pattern, Maximum charging current, Full-charged voltage, Charge indication, Full-charged time.

PRODUCT OVERVIEW

BATTERY INSTALLATION

Before first use, unscrew the tailcap and remove the insulating film within the battery compartment before screwing the tailcap back on tightly.

AVAILABLE BATTERIES

- 1 x customized 5000mAh 21700 rechargeable lithium battery

CHARGING

VIBRATING POWER INDICATOR

It helps to alert if the battery is low (power < 20% vibrate once every 5 minutes; power < 10% vibrate once per minute; power < 5% vibrate once every 10 seconds).

GREEN Charging Completed

RED Charging

* Before first use please fully charge the product. * Connect the magnetic USB end of the charging cable (MCC3) to an external USB power source, then attach the other end of the magnetic charging cable to the charging port.

PRODUCT INSTALLATION

a. Rotate the button 90 degrees counterclockwise to unlock the product as the mark shows.

b. Press the button and remove the product.

c. Loosen the screws and install the rail mount in its desired position, then tighten the screws.

d. Slide the product into the rail mount until you hear a click, then turn the button 90 degrees clockwise as the mark shows to fix the product.

REMOTE SWITCH INSTALLATION

a. Attach the magnetic remote switch to the tail of the product (make sure the detent ring of the remote switch is unlocked).

b. Push the ring forward to fix the remote switch.

DANGER

- DO NOT throw the light directly into human eyes. This may cause temporary blindness, or permanent damage to the eyes. DO NOT cover the light head when the flashlight is on, or place the light head on the ground.

WARNING

- Keep out of reach of children. DO NOT activate high mode repeatedly under high temperature to prevent the light body from overheating and hurting the user's hand.

NOTICE

- DO NOT short circuit the switch cap with the ring outside it for a prolonged period. The short circuit in this case will result in a loss of current below 3mA, and may lead to a complete battery drain if it is in this state for too long.
