* Rated data at 70°F and High mode has been measured (ambient under 25 degrees Celsius) in standard conditions in a laboratory. Results may vary due to different environmental temperatures and ventilation conditions.

CONVENIENT CHARGING

The R50 Seeker comes with a convenient Micro-USB cable to make your flashlight charging easy. Simply plug the Micro-USB cable into the tailcap charging port and a wall plug and you're all set.

The tailcap features a LED that glows red to indicate that the light is charging and the LED will turn green when the light has been completely charged.

Put the rubber cover back in position to keep water or dust out of the USB port.

Voltage: DC5V
Current: 1000mA

The R50 Seeker | A powerful rechargeable side switch LED flashlight with high capacity lithium battery, delivers 2500 lumens in a handheld size form factor. The R50 features the latest in Cree XHP50 LED and a 4500mAh high discharging rating rechargeable lithium battery, its output over twice of the most popular XM-L2 series flashlight, as well remains almost 50 hours runtime. Common Micro-USB charging port in the tail-cap is compatible with most of USB power supply that the mobile phones or digital devices used, it makes convenient for daily uses. It also features a brand new tactile translucent switch and new inclined plane styles to present good user friendly interface. The R50 seeker offers you a powerful and versatile flashlight, is ideal for police, security, industrial, and home applications alike.
