The Innovative **Rechargeable** S Series LED Flashlights

The intelligent charging dock is easy to use and has built-in safety features that can identify non-supported battery types (NIMH and alkaline) and not charge. Its USB output port conveniently allows you to charge other mobile devices.

S10R/S15R/S20R

The Innovative **Rechargeable** S Series LED Flashlights

The convenient and versatile anti-slip pad (included) accessory allows you to mount your charging base practically anywhere.

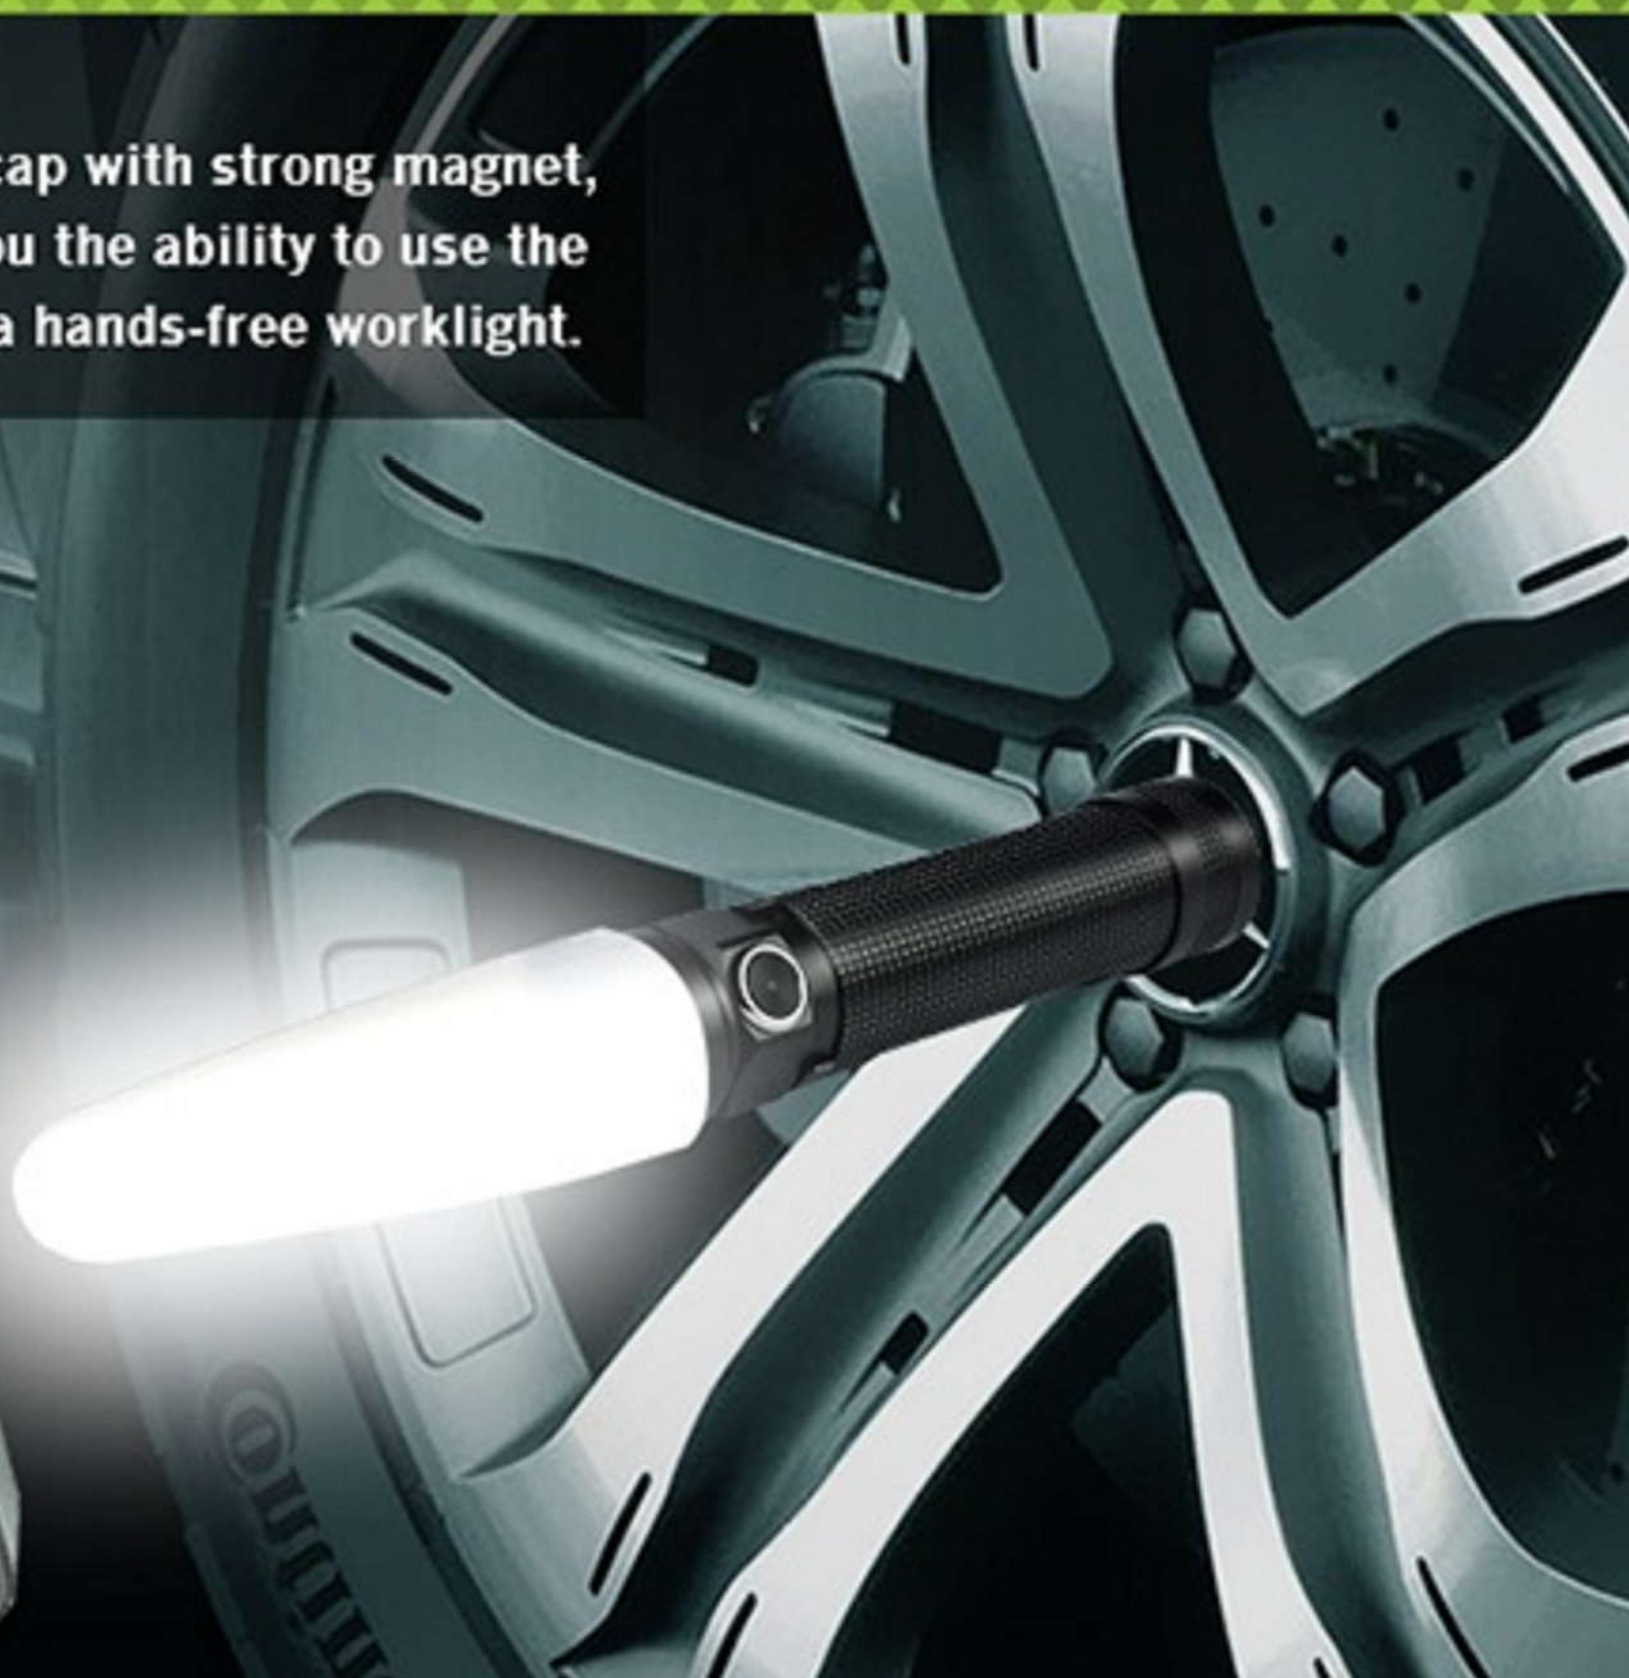

S10R/S15R/S20R

The Innovative **Rechargeable** S Series LED Flashlights

Flat tailcap with strong magnet, giving you the ability to use the light as a hands-free worklight.

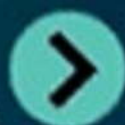

S10R/S15R/S20R

The Innovative **Rechargeable** S Series LED Flashlights

The S series's removable two-position, stainless steel pocket clip with anti-scratch, anti-corrosion coating, makes it easy to attach to a pocket, hat, or backpack.

S10R/S15R/S20R

The Innovative **Rechargeable** S Series LED Flashlights

The new low-profile side switch design helps avoid accidental activation while featuring a battery power indicator, which glows red when battery runs low.

WATERPROOF

IPX-7

Withstands incidental exposure to water of up to 1 meter for up to 30 minutes.

Appropriate usage: Indoor/outdoor use in the presence of rain, snow or brief splashes of water.

Olight S10R Description

The S10R Baton is an extremely small, powerful, and rechargeable 400-lumen LED flashlight with an intelligent multi-functional side switch. There are a total of 4 different power settings and a strobe mode. Its small size, high output, four brightness levels, and strobe mode make it the perfect all-purpose light. Barely larger than the single RCR123A battery powering it, the tiny S10R disappears into a pocket or your palm. You can comfortably carry it all day long at the office or on a camping trip. And with its included rechargeable lithium-ion battery and compact Micro-USB charging dock, you don't have to worry about bulky chargers or special cables. Plus, you can charge your mobile device via the USB port at the same time as charging your light through the Micro-USB port. The S10R also features a power indicator located around the side switch, which will glow red when your battery power is low. With its dual purpose magnetic tail cap, you can use the S10R as a hands-free convenient work light, and attach it securely to the included charging base. Never be without a powerful light — the S10R Baton is the perfect constant companion.

Main Features:

- NEW Low-profile side switch featuring a battery power indicator, which glows red when battery runs low
- NEW Includes patent-pending Micro-USB charging dock and a 650mAh RCR123A rechargeable battery
- NEW Thermal management safety program provides overheating protection by dropping high output by 50 percent after 4.5 minutes of constant on
- NEW Glow-in-the-dark o-ring in bezel to help locate flashlight from accidentally dropping it
- 99 percent light transmittance rate through tempered glass, with two-sided anti-reflective coating
- Multi-functional side switch with four brightness levels, plus a strobe mode
- Automatically return to your last brightness level with the built in memory function
- Removable two-position pocket clips
- Flat tail cap with strong magnet, giving you the ability to use the light as a hands-free worklight
- Highly reliable 6061-T6 aluminum alloy structure with ant-scratch, type-III hard anodizing with a stainless steel bezel to protect against drops
- Reverse polarity protection to prevent improper battery installation
- Can be powered by one non-rechargeable CR123A lithium battery as a last resort in an emergency
- Low standby current below 8uA
- Size of harging Dock: 5.51 x 5 x 1.6 cm / 2.17 x 1.97 x 0.63 inches
