

Olight i3S EOS 80 Lumen XP-G2 AAA LED Flashlight - Special Edition Ember Orange

Olight i3S EOS 80 Lumen XP-G2 AAA LED Flashlight - Special Edition Ember Orange

The i3S EOS is the second edition of the popular i3. It inherits the classic i3 compact design and stylish appearance, with a newly designed clip and clip mount. The i3S uses latest CREE XP-G2 LED and updated drive circuitry, which gives the light more output and higher efficiency. This is a Going Gear exclusive edition with type III hard anodizing in ember orange and the flame from our logo engraved opposite the Olight logo.

Check the More Views section under the main image for the ANSI specs.

- Utilizing the newest Cree XP-G2 LED, with the max output of 80 lumens (increased by 20%, based on the old i3)
- Adjustable output levels: Moonlight, Low, High and Strobe mode (by rotating its head to shift modes)
- High quality stainless steel clip makes it durable and keeps a firm grip on your pocket
- The pocket clip is reversible, allowing for hat brim or similar attachment
- Aluminum body with scratch resistant type III Hard Anodizing (on black model)
- Flat tail cap allows for tail-standing
- Adopt linear current regulation technology, no PWM
- Strong keychain attachment point
- Orange peel reflector, fit for close range lighting
- 96% transparent ultra-clear optical lens
- Attractive gift box packaging
