Runtime	45min
Impact Resistance	1.5m
Waterproof	IPX8

3.74" 0.70in 95*17.8mm	2.22oz 63g Including Battery
---------------------------	------------------------------------

*All above specifications are test results based on ANSI/NEMA FL1-2009 Standards.

AVAILABLE BATTERIES

- 1 x 1.5V AA alkaline battery (included)
- 1 x AA NiMH battery (compatible)

INSULATING FILM

Before first use, unscrew the tailcap and remove the insulating film.

BATTERY INSTALLATION

If the battery needs to be replaced, make sure that the positive end of the new battery faces the flashlight head when you put it in.

DANGER

- DO NOT shine the light directly into eyes or onto skin to avoid injury or harm.
- DO NOT cover the light head when the flashlight is on, or place the flashlight head on the ground. The radiation energy of the flashlight may cause damage to the flashlight itself, or even result in burning to other materials.
- DO NOT use batteries other than the ones mentioned in the "available batteries", especially rechargeable lithium batteries, otherwise it could lead to the damage of the flashlight, or unexpected danger.

WARNING

- Keep out of reach of children.
- If the light is about to be put aside for a long time or be transported, please unscrew the tailcap and remove the battery to cut off the circuit.

NOTICE

- Ensure that the battery is inserted with the positive (+) end pointing to the head of the flashlight (LED side).
- The 365nm ultraviolet light can only reach the dermis, and can NOT penetrate any clothing.
- The lens should be cleaned regularly to ensure the ultraviolet light a normal output.
