

MCC
MAGNETIC CHARGING CABLE

OLIGHT

Compatible
with
R50 Pro

OLIGHT

OLIGHT

Status indicator

Charging your flashlight is easy. Simply attach the circular base of the magnetic charging cable to the flashlight's tail cap and plug the USB port to any convenient power source such as a wall plug or laptop. The indicator glows red when the light is charging and glows green when it is fully charged. The cable will stay green when it is connected to a USB power source, but not connected to a flashlight.

Input:

- DC 5V, 1000mA 5W

Max. output:

- 4.2V, 1000mA
