OLIGHT

IN THE BOX

Table 1: Specifications

Features	Parameters
Red Light	8-55 Lumens
Blue Light	20-150 Lumens
Green Light	4-36 Lumens
Main Material	FPC
Input	USB-A DC 5V=1A 5W
Light Source	RGB LED
Working Temperature	0 - 45°C
Waterproof Rating	IP22 (if light part only. Controller is not included)
Weight	190 g (including cable)
Length (Light)	5 m / 16.4 ft
Length (Cable)	1.5 m / 4.9 ft
Operation Frequency (European Standard)	2.4 GHz; 2402 MHz-2480 MHz
Maximum Output Power	2.4 GHz - 10 dBm
Control Distance	< 25 m
Weight	190 g (including cable)

(EN) English

1. Please refer to Table 1 for product specifications.
2. See Figures 1 and 2 for the installation methods.

3. Power on, see Figure 4.

4. Power off, see Figure 6.

5. Toggle the light mode, see Figure 5.

6. Change brightness, see Figure 7.

7. See below for operation.

8. Turn on/off the Ostrip, see Figure 8.

9. Enter pairing mode, see Figure 9.

10. Change brightness level, see Figure 10.

11. Change music sync, see Figure 11.

12. Turn on/off the Ostrip, see Figure 12.

13. Set the countdown timer to turn the light off, see Figure 13.

14. Set the brightness level, see Figure 14.

15. Set the scene mode, see Figure 15.

16. Set the music sync mode, see Figure 16.

17. Set the interactive mode, see Figure 17.

18. Set the Ostrip to turn on/off automatically, see Figure 18.

19. Set the Ostrip to turn on/off when motion detected, see Figure 19.

20. Set the Ostrip to turn on/off when sound detected, see Figure 20.

21. Set the Ostrip to turn on/off when touch detected, see Figure 21.

22. Set the Ostrip to turn on/off when motion and sound detected, see Figure 22.

23. Set the Ostrip to turn on/off when motion and touch detected, see Figure 23.

24. Set the Ostrip to turn on/off when sound and touch detected, see Figure 24.

25. Set the Ostrip to turn on/off when motion and sound and touch detected, see Figure 25.

26. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 26.

27. Set the Ostrip to turn on/off when motion and sound and touch and light and touch detected, see Figure 27.

28. Set the Ostrip to turn on/off when motion and sound and touch and light and touch and light detected, see Figure 28.

29. Set the Ostrip to turn on/off when motion and sound and touch and light and touch and light and touch detected, see Figure 29.

30. Set the Ostrip to turn on/off when motion and sound and touch and light and touch and light and touch and light detected, see Figure 30.

31. Set the Ostrip to turn on/off when motion and sound and touch and light and touch and light and touch and light and touch detected, see Figure 31.

32. Set the Ostrip to turn on/off when motion and sound and touch and light and touch and light and touch and light and touch and light detected, see Figure 32.

33. Set the Ostrip to turn on/off when motion and sound and touch and light and touch and light and touch and light and touch and light and touch detected, see Figure 33.

34. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 34.

35. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 35.

36. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 36.

37. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 37.

38. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 38.

39. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 39.

40. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 40.

41. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 41.

42. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 42.

43. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 43.

44. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 44.

45. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 45.

46. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 46.

47. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 47.

48. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 48.

49. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 49.

50. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 50.

51. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 51.

52. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 52.

53. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 53.

54. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 54.

55. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 55.

56. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 56.

57. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 57.

58. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 58.

59. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 59.

60. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 60.

61. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 61.

62. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 62.

63. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 63.

64. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 64.

65. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 65.

66. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 66.

67. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 67.

68. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 68.

69. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 69.

70. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 70.

71. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 71.

72. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 72.

73. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 73.

74. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure 74.

75. Set the Ostrip to turn on/off when motion and sound and touch and light detected, see Figure
