S30 BATON

VARIABLE-OUTPUT SIDE-SWITCH LED FLASHLIGHT

Enhance the heat dissipation

Built in thermal management safety program based on the accurate running time to bring stability and reliability in real work

S30 BATON

VARIABLE-OUTPUT SIDE-SWITCH LED FLASHLIGHT

Compact, powerful, and bright

The S30 Baton is a compact, powerful LED flashlight, with a retina-scorching 1000-lumen beam that reaches out to 160 meters (525 ft). There are a total of five different power settings and a strobe mode—giving you the variable lighting options you need to take on any task. The S30 features a power indicator located on the side switch, which will glow red when your battery power is low. With its dual purpose magnetic tailcap, you can use the S30 as a hands-free convenient worklight. So whether your changing a tire at night at the side of the road or trekking in the woods, the S30 has you covered.

Olight S30 Baton LED Flashlight - 1000 Lumens - Cree XM-L2 LED - Uses 2 x CR123A or 1 x 18650

10 Reviews Item #: OLIGHT-S30-BATON Brand: Olight

Olight S30 Baton

Compact & Bright EDC

1000 Lumens of portable power

The **Olight S30 Baton** is a high powered tactical EDC that utilizes a **CREE XM-L2 LED** to emit up to **1000 Lumens** of bright white LED output. This flashlight has a compact baton form that is great for every day carry, and operates on 2 CR123A batteries or a single rechargeable Li-Ion 18650. The S30 is perfect for work or play, and can be stored easily and securely in a pocket with the aluminum pocket clip. The s30 combines cutting edge LED technology with high quality Olight construction to form one of the most reliable EDCs around!

CREE LED Power

Cutting edge XM-L2 technology

Being equipped with a CREE XM-L2 LED gives the S30 Baton access to up to 1000 lumens, however it is capable of a wide range of variable outputs to suit your situational needs. While the turbo 1000 lumen mode will deplete the battery in an hour, the light can be switched to a moderate 600 lumens to nearly double the run time! If you just need a small amount of the light the lowest 1 lumen mode can conserve battery life and run for up to 720 hours, saving energy and providing steady illumination. The light also features a tactical strobe mode that can be used to disorient attackers or signal in the event of an emergency.

Quality Olight Construction

Hard anodized 6061-T6 aluminum alloy

It isn't an Olight if it isn't made with the best designs and from the highest quality materials. The S30 Baton is crafted from lightweight yet durable 6061-T6 aluminum alloy, making it highly resistant to impact damage and able to withstand drops of up to 1.5 meters. This light is also prepared for use in any weather, and has been rated **IPX-8 Waterproof** and is fully submersible up to 2 meters! This rugged and reliable flashlight is perfect for outdoor use or for use in hazardous work environments.

Features:

- 1000 Lumen LED output
- Low profile side switch
- Battery power indicator on side switch
- Thermal management safety programming
- Glow in the dark o-ring in bezel
- Tempered glass lens with anti-reflective coating
- Five brightness levels + strobe mode
- Built-in memory function
- Flat tailcap with strong magnet
- Crafted from 6061-T6 aluminum alloy
- Type III hard anodized
- Shock proof battery contact springs
- IPX-8 Waterproof
- 1.5 Meter impact resistant
- Includes:
 - Replacement O-ring (x2)
 - Battery magazine
 - Removable pocket clip
 - User's manual

Specifications:

- LED: CREE XM-L2
- Runs on 2 x CR123A or 1 x 18650 (not included)
- Output / Runtime:
 - Turbo: 1000 Lumens / 1 Hour
 - High: 600 Lumens / 2 Hours
 - Medium: 100 Lumens / 10 hours
 - Low: 20 Lumens / 26 Hours
 - Lowest: 1 Lumen / 720 Hours
- *Note: Light drops down to 60% after 5 minutes of continuous use in turbo mode*
- Beam Distance: 160 Meters
- Peak Beam Intensity: 6400cd
- Dimensions:
 - Length: 119mm
 - Diameter: 25mm
- Weight: 2.6 oz (73.4g) (excluding batteries)

NOTE: This is the non-rechargeable version of the [S30R](#).
