

S30R Baton

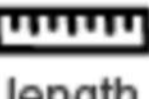

Rechargeable Variable-Output Side-Switch LED Flashlight

Key Features:

- **NEW** Low-profile side switch featuring a battery power indicator, which glows red when battery runs low
- **NEW** Includes patent-pending Micro-USB charging dock and a 18650 3400 mAh 3.6V rechargeable battery
- **NEW** Thermal management safety program provides overheating protection by dropping high output by 60% after 5 minutes of constant on.
- **NEW** Glow-in-the-dark o-ring in bezel to help locate flashlight from accidentally dropping it
- 99% light transmittance rate through tempered glass, with two-sided anti-reflective coating
- Multi-function side switch with five brightness levels, plus a strobe mode
- Automatically return to your last brightness level with the built in memory function
- Removable pocket clip
- Flat tailcap with strong magnet, giving you the ability to use the light as a hands-free worklight
- Highly reliable 6061-T6 aluminum alloy structure with ant-scratch, Milspec Type-III hard anodizing
- Enhanced shock-proofing in battery contact springs to support both flat and tabular 18650 batteries
- Can be powered by two non-rechargeable CR123A lithium batteries as a last resort in an emergency.
- Low standby current below 15uA

 length	Body: 4.69 in/119mm x 0.98 in/25mm, Charging Dock: 2.17 in/55.1mm x 1.97 in/50mm x 0.63 in/16mm				
	122g/4.3 oz (body, excluding batteries), 24g/ 0.85 oz (charging dock)				
	0.98 in/25mm				

ACCESSORIES

The S30R Baton is a compact, powerful, and rechargeable LED flashlight, with a retina-scorching 1000-lumen beam that reaches out to 160 meters (525 ft). There are a total of five different power settings and a strobe mode (1000 lumens for 2 hours)— giving you the variable lighting options you need to take on any task. With its powerful included 18650 3400 mAh battery, you can get up to 720 hours of useful runtime off of a single charge. And with its included compact Micro-USB charging dock (Micro-Dok), you don't have to worry about bulky chargers or special cables. Plus, you can charge your mobile device via the USB port at the same time as charging your light through the Micro-USB port. The S30R also features a power indicator located on the side switch, which will glow red when your battery power is low. With its dual purpose magnetic tailcap, you can use the S30R as a hands-free convenient worklight, and attach it securely to the included charging base. So whether your changing a tire at night at the side of the road or trekking in the woods, the S30R has you covered.

The specifications in the chart to the right claim to ANSI/NEMA FL1-2009 Standards. Tests performed with 1 x 18650 (3400mAh/3.6V) battery.
