

Olight SR50 Intimidator 800 Lumen Flashlight

Olight SR50 Intimidator Flashlights may be the smallest flashlights in the O-Light Intimidator series, but they still manage to create an incredibly bright white LED beam specifically suited for dangerous search and rescue operations. Though it's about 2/3 the size of the next largest *Intimidator flashlight*, this Olight flashlight can churn out up to *800 lumens* using its smooth reflector and *Luminus SST-50 LED bulb*. The **O-Light SR-50 Intimidator 800 Lumen Flash Light** features three distinct lighting modes - strobe, high, and low - that can be toggled using the LED flashlight's incredibly simple user interface: hold down the power button to cycle between high and low, or double click the button to activate the flashlight's strobe. The aircraft grade aluminum body of these rechargeable flashlights houses six *CR123A rechargeable batteries* that can power the flashlight for up to 10 hours on the Low brightness setting. With IPX8 waterproofing, an anti-scratch, anti-shatter lens, and comfortable knurling, these smaller-scale flashlights are built to last. Olight has also included a flashlight holster, a lanyard, two spare o-rings, an operation manual, and a handsome metal carrying case with the **SR50 Intimidator**. For a compact, heavy duty flashlight by Olight, choose the **O-Light SR 50 Intimidator Compact LED Flashlight**.

Specifications for Olight SR-50 Luminus SST-50 LED Flash Light:

Flashlight Type:	LED, Rechargeable
Application:	Search and Rescue, General
Output:	800 lumens (High), 200 lumens (Low)
Beam Distance:	700m (High)
Batteries:	6x CR123A
Battery Life:	10 hours (Low), 3 hours (Strobe), 1.5 hours (High)
Material:	Type III anodized aircraft aluminum
Length:	7.28"
Bezel Diameter:	2.48"
Weight:	13.97 oz, without batteries
Finish:	Black
Waterproof:	IPX-8

Features of O Light SR50 Intimidator:

- Smallest flashlight in the O-Light Intimidator series
- Designed for search and rescue operations
- Uses Luminus SST-50 LED bulb
- Maximum 800 lumen output on High setting
- Made from aircraft grade aluminum with Type III hard anodized finish
- 700 meter beam throw distance with smooth reflector
- Tridimensional heat dissipation prevents overheating
- Toggle between Low and High modes by holding on switch, or activate strobe by double tapping the switch
- Automatic lighting mode memory
- IPX-8 waterproofing
- Ultra-clear lens with anti-shatter, anti-scratch, and anti-slip coating
- Precisely engineered knurling for strong grip
- Stands on tail for lantern-like illumination
- Extremely portable
- Powered by 6x CR123A rechargeable batteries
- Includes hard metal case, lanyard, holster, and more
- Black finish

Package Contents:

- **Olight SR50 Intimidator Flashlights**
- Flashlight holster
- Lanyard
- 2x spare o-rings
- Operator's manual
- Metal carrying case
