

Olight Intimidator S Ultra Throw (SR95S UT)

The Olight SR95S Intimidator Ultra Thrower (SR95S UT for short) is a special edition of the SR95UT. The SR95S UT inherits the sturdy SR95 frame, but has an upgraded LED, the Luminus SBT-70 LED, which adopts an un-encapsulated die with a low profile protective window to get perfect light intensity by optimizing focus on the reflector. The new SBT-70 LED is combined with Olight's special designed reflector and the SR95's well-established platform. The SR95S UT achieves staggering 1000 meters of ultra-throw ability, making it an industry leader in performance.

UT stands for Ultimate Throw, and boy does this search light deliver just that. The SR95S UT is capable of having a beam distance of up to **1,000 meters**. You can literally slice the night in half with this sword of a light. This rechargeable wonder is perfectly suited for search and rescue missions or exploration efforts that demand an incredible range of light. If you are looking for a very powerful search light with the ability to shine down almost 2/3 of a mile, then look no further, as the SR95S UT will help you find whatever you're looking for.

Lighting Technology

The SR95S UT is equipped with a LUMINUS SBT-70 LED and outputs a powerful **1250 lumens** on High. While in Low mode, which emits 150 lumens, the SR95S UT can run for up to two days straight. This amazing search light was designed to be extremely bright and maximize beam distance. You can shine a beam as far whopping **1,000 meters**, which is a little under 11 football fields. That will definitely make sure you can see everything in sight. A multi-function click side-switch with a memory function remembers the last power setting used and is also a quick access to strobe mode. The unique engineering of the head and reflector features a "Hollow out" design for optimum heat dissipation and weight distribution. The perfect luminous spot and wide area of lighting makes this an ideal search and rescue light.

Olight Intimidator S Ultra Throw (SR95S UT)

Power

At the heart of this beast of a light is a 7.4V 7800mAh battery pack. If you feel the need to have back up power, we offer a 7800mAh Battery Pack, so you'll never be left in the dark. If you still feel the need to be plugged in, you can purchase the 12V DC Car Charger, so you'll be good to go in the car. The body features a charge indicator and integrated port for easy recharges. You don't need to worry if your SR95S UT gets lightly wet because it is IPX-6 rated and can resist water. Also, the SR95S UT features a lock-out function, so you don't have to worry about accidentally activating the light.

Features:

- Friendly user interface, press and hold the switch for transferring mode
- Rechargeable battery handle
- Smart-circuit provides thermal protection
- Anti battery polarity reverse protection
- Rugged indestructible aluminum body with anti-scratching type III hard anodization, Engineered anti-slip knurling for a tightly firm grip
- Intelligent temperature control system to stop flashlights overheated
- Super Strong anti-reflex coating lens,99% effective transmission
- Advanced digital power management system
- Excellent tri-dimensional heat dissipation ability
- Included: rechargeable lithium battery handle, AC charger and power cable, spare o-rings, strap, and carrying case
- Uses world-class super bright revolutionary round LED --- Luminus SBT-70
- Max.Beam Intensity: 250,000cd, Max.Beam Distance:1000m
- The lighting source adopts an un-encapsulated die to get perfect light intensity by optimizing focus on the reflector
- The 7800mAh 7.4V 18650 rechargeable lithium battery can also be used in SR90/91/92/95 with a perfect compatibility
- Hollow out structure in the head reduces weight by 25% compared to traditional sealed packet design
- The hollowed out structures achieves twice the cooling surface area than that of solid design
- Lens: tough ultra-clear tempered glass, with anti-reflective coating
- The large square surface texture in the body increases grip for a steady hold
- A large, 18mm diameter button makes the light easy to operate
- Olight patented lock out function

Olight Intimidator S Ultra Throw (SR95S UT)

Specifications:

- LED: LUMINUS SBT-70 LED
- Runs on: Rechargeable 7.4V 7800mAh Battery Pack (Battery included)
- Output mode/Runtime:
 - High: 1250 lumens / 3hrs
 - Low: 500 lumens / 8hrs
 - Low: 150 lumens / 48hrs
- Peak Beam Intensity: 250,000cd
- Dimensions:
 - Length: 12.8" (325mm)
 - Head Diameter: 3.5" (89mm)
 - Body Diameter: 2" (58.8mm)
- Weight: 43.4 .oz (1230.5g) (excluding batteries)

FL 1 STANDARD	MODE 1	MODE 2	MODE 3

A New Landmark for LED Flashlight Industrial!

MAX. Beam Intensity: **250,000 cd**

MAX. Beam Distance: **1000 m**

SR95S INTIMIDATOR 

Revolutionary Innovation from Luminus: **World's First Round LED**

- Extremely high optical output from a 7 mm² circular source: Upto 1,700 white lumens
- Round emitting aperture provides most efficient match to circular optical systems and narrow beam projectors
- Unencapsulated die with low profile protective window optimizes optical coupling in etendue-limited applications
- High thermal conductivity package - junction to case thermal resistance of only 0.64 °C/W
- Variable drive current: 1 A through 10.5 A for white
- High CRI at tungsten and daylight color temperatures for natural lighting
- Environmentally friendly: RoHS compliant
